Section 9: Discounts FAQs

Question:**How do I apply a discount coupon code on ShopEase?****Answer:**

During checkout on the payment review screen, enter your promo code into the 'Apply Coupon' box and click 'Apply'. If your cart satisfies the coupon conditions and Minimum Order Value (MOV), the discount will reflect immediately.

Category: Discounts | **Related Policy:** discount_policy.pdf

Question:**Can I use more than one coupon code on a single order?****Answer:**

No. ShopEase maintains a strict one-coupon-per-order rule. You cannot stack multiple promotional coupon vouchers on the same cart.

Category: Discounts | **Related Policy:** discount_policy.pdf

Question:**Can I combine a coupon code with my ShopEase membership discount?****Answer:**

Yes! While multiple coupons cannot be stacked, an eligible coupon CAN be combined with your ShopEase Plus (5%) or Premium (10%) member discount. The tier discount applies first, and the coupon code is applied to the remaining subtotal if it meets the MOV.

Category: Discounts | **Related Policy:** [discount_policy.pdf](#)

Question:**What does Minimum Order Value (MOV) mean for coupon codes?****Answer:**

Minimum Order Value (MOV) is the qualifying subtotal of eligible items required in your cart before the coupon discount can activate. For example, coupon FESTIVE200 requires a minimum cart value of ₹1,999 to get ₹200 off.

Category: Discounts | **Related Policy:** [discount_policy.pdf](#)

Question:**Why is my coupon code showing as invalid or not applying?****Answer:**

A coupon may fail if: (1) the code has expired, (2) your cart value does not meet the MOV threshold (e.g. ₹1,999), (3) the items in your cart belong to excluded categories (gift cards, bullion), or (4) the coupon was single-use and already redeemed.

Category: Discounts | **Related Policy:** [discount_policy.pdf](#)

Question:**What happens to my coupon if I cancel an order?****Answer:**

If an entire order placed with a single-use coupon is cancelled prior to shipment, the coupon is automatically restored to your account within 2 hours with its original validity intact.

Category: Discounts | **Related Policy:** [discount_policy.pdf](#)

Question:**How is a refund calculated on an item bought with a discount coupon?****Answer:**

Refunds are always calculated strictly on the net amount paid after the discount was deducted, never on the original MRP or pre-discount retail price.

Category: Discounts | **Related Policy:** [discount_policy.pdf](#)

Question:**What is the welcome discount for new shoppers on ShopEase?****Answer:**

New registered customers can use coupon WELCOME100 to receive a flat ₹100 discount on their first purchase with a Minimum Order Value of ₹999.

Category: Discounts | **Related Policy:** [discount_policy.pdf](#)

Question:**Are discount coupons applicable on all products?****Answer:**

Most general retail products are eligible. However, coupons cannot be applied to gold/silver coins, digital gift cards, baby infant formula, or ShopEase Plus/Premium membership subscriptions.

Category: Discounts | **Related Policy:** [discount_policy.pdf](#)

Question:**Can customer care reactivate an expired discount code for me?****Answer:**

No. Promotional coupon codes have hardcoded validity windows evaluated in Indian Standard Time (IST). Support representatives do not have manual override authority to reactivate expired codes.

Category: Discounts | **Related Policy:** [discount_policy.pdf](#)

Question:**If I return one item from a combo offer, how is my refund impacted?****Answer:**

If returning one item causes the retained cart to breach the combo threshold, the combo discount is revoked and the price is recalculated at individual item rates before releasing the refund.
