

ShopEase — Shipping & Delivery Policy

Company: ShopEase	Effective Date: 01 September 2026
Document Type: Shipping Policy	Last Updated: 01 September 2026
Version: 1.0	Status: Active

1. Shipping Methods & Authoritative Delivery Timelines

ShopEase partners with India's premier logistics carriers (including Blue Dart, Delhivery, Shadowfax, and XpressBees) to deliver parcels safely across more than 19,000 pin codes nationwide.

AUTHORITATIVE SHIPPING TIMELINES

- **Standard Shipping:** 3-7 business days across India
 - **Express Shipping:** 1-3 business days in eligible metro and tier-1 municipal zones
- Business days exclude Sundays and gazetted national public holidays.

2. Shipping Charges & Membership Privileges

Shipping rates are calculated based on order value, shipping speed, and customer membership status:

Service Tier	Standard Shipping (3-7 Days)	Express Shipping (1-3 Days)
Basic (Non-Member)	FREE on orders ₹499 and above; Flat ₹49 for orders below ₹499	Flat ₹99 per order (where available)
Plus Member (₹499/yr)	FREE on all orders with NO minimum order threshold	Discounted ₹49 per order
Premium Member (₹999/yr)	FREE on all orders with NO minimum order threshold	FREE unlimited Express Shipping on eligible items

3. Consignment Tracking & Milestone Status Meanings

Every dispatched shipment receives an Air Waybill (AWB) tracking number linked to live carrier tracking API feeds. Tracking milestones include:

- **Order Confirmed:** Order details verified; inventory allocated at fulfillment warehouse.
- **Packed / Manifest Generated:** Items boxed with shipping label; courier pickup scheduled.
- **Shipped / In Transit:** Parcel scanned at regional courier hub; en route via road/air freight network.
- **Out for Delivery:** Assigned to local delivery courier for doorstep handover today.
- **Delivered:** Handover completed; digital OTP / receiver signature verified.
- **Undelivered / Rescheduled:** Delivery attempted but recipient unavailable; re-attempt scheduled next business day.
- **RTO (Return to Origin):** 3 failed attempts or customer refusal; parcel returning to merchant/hub.

4. Delivery Attempts, Address Corrections & Exceptions

Delivery Attempts: Our courier partners make up to 3 consecutive delivery attempts. Before each attempt, an automated SMS notification is dispatched with the delivery agent's contact details.

Address Modifications: Customers can modify their delivery address directly from the order page while the order remains in 'Order Placed' or 'Processing' status. Once marked 'Shipped', the delivery destination cannot be altered because the shipping manifest is locked.

Delayed Delivery Escalations: If a package fails to arrive within the committed delivery window (7 business days for Standard, 3 business days for Express), our logistics monitoring system automatically triggers an urgent tracer ticket. If tracking remains stagnant with no scan for 7 consecutive business days, the parcel is officially deemed lost, and the customer is offered an instant replacement or 100% full refund.

DAMAGED PARCEL PROTOCOL

If the outer shipping carton shows evident signs of severe crushing, tearing, or tampering, customers should decline acceptance and endorse the courier delivery sheet with 'Refused Due to Outer Damage'. Alternatively, take clear photos/video before accepting.
