

ShopEase — Product Warranty Policy

Company: ShopEase	Effective Date: 01 September 2026
Document Type: Warranty Policy	Last Updated: 01 September 2026
Version: 1.0	Status: Active

1. Warranty Definition & Authoritative Standard

ShopEase provides transparent, reliable warranty coverage on genuine consumer products purchased through our platform. All branded electronics and appliances are backed by authoritative manufacturer warranties.

AUTHORITATIVE ELECTRONICS WARRANTY STANDARD

- Selected electronics: 12-month manufacturer warranty
- The warranty displayed on the individual product listing is the applicable warranty for that product. The 12-month period is the standard warranty reference for selected electronics.

2. Scope of Coverage: Inclusions vs Exclusions

Warranty safeguards products against internal engineering and component failures occurring under normal, intended domestic usage:

Coverage Domain	Covered Under Warranty	Strictly Excluded from Warranty
Hardware & Circuitry	Motherboard failure, processor faults, display panel dead pixels (>3), charging circuit defect	Physical drops, cracked screens, shattered casings, bent chassis
Internal Components	Internal speaker failure, motor burnout, sensor malfunction, microphone defects	Liquid ingress, moisture corrosion, water submersion, chemical spills
Firmware / Operating System	Factory boot-loop, official firmware update failure, wireless connectivity hardware faults	Rooting, custom ROM flashing, bootloader unlocking, malware infection
Service History	Repairs executed by certified brand authorized service centers	Repairs attempted by unauthorized third-party technicians or unsealed units

3. Step-by-Step Warranty Claim Procedure

How to File a Warranty Claim:

- Retrieve Tax Invoice:** Download the official GST tax invoice from your ShopEase account ('My Orders > Download Invoice'). This serves as primary proof of purchase date.
- Locate Authorized Service Center:** Visit the brand manufacturer's official authorized service center nearest to your location, or contact ShopEase Warranty Support (warranty@shopease.example) for referral assistance.
- Device Assessment:** The technician will verify device serial number against the purchase invoice and conduct diagnostic evaluations.
- Resolution SLA:** Covered defects are repaired free of charge using genuine manufacturer components (typical turnaround: 7-14 business days). If the unit is certified unrepairable, an official replacement unit is issued.

4. Premium Member Extended Warranty Benefit & Edge Cases

ShopEase Premium Extended Warranty: Active ShopEase Premium members (₹999/year) receive an additional 6 months of comprehensive extended warranty coverage on selected electronics. This coverage commences immediately upon expiration of the primary 12-month manufacturer warranty, extending total protection to 18 full months. Extended warranty claims are handled directly through ShopEase Warranty Concierge.

Transferred Ownership & Gifts: Warranty coverage is tied to the unique product serial number and remains fully valid if an item is gifted, provided the recipient holds the original GST purchase invoice.

WARRANTY VS 7-DAY RETURN WINDOW

Clarification: Defects discovered within 7 calendar days of delivery are eligible for immediate replacement or full refund through ShopEase Returns. Defects emerging after day 7 fall under the 12-month manufacturer warranty service process.
